## What's on the table?

We've been asking those at the GC what they'd like to see in the next contract. This is what they've said:

53k take-home pay\*

Full funding for those who want it

Protections against workload creep

System to penalize CUNY when it pays workers late

Clearer contract language on work expectations

All compensation, including stipends and STEM funding, in contract

What do you think about these demands?

\*The MIT Living Wage Calculator has calculated 53k to be the living wage in Manhattan

The PSC is not some union out there—it is *our* union. During this contract fight, we must win better working conditions and pay for ourselves.

The way to do that is through bottom-up organizing. Which involves all of us.

Inflation is hurting us

CUNY bureaucracy is hurting us

The PSC must fight back

## Get involved

We build the union together. Get involved by scanning the QR code and signing up for tabling sessions, so you can talk to other GC workers about the contract.

Or host a PSC event at the GC. We will provide budget support for departmental mixers and events where members talk to each other about work and contract concerns. Write us at [psccunyg@gmail.com](mailto:psccunyg@gmail.com)!

## The Two Steps Forward

**One**—Push the PSC's bargaining team to advocate for our chapter and voice our demands

To get a contract, the PSC sends a bargaining committee to negotiate with CUNY.

There are not many workers from the GC on the committee.

We must make sure the committee hears our demands.

**Two**—Push CUNY to give us what we demand in the contract.

As a union, we must fight for the best contract possible.
